MUTUAL NON-DISCLOSURE & TECHNICAL EVALUATION AGREEMENT

This Mutual Non-Disclosure & Technical Evaluation Agreement ("Agreement") is entered into as of the date of final signature below ("Effective Date"), by and between:

David Mahler, an individual inventor ("Discloser" / "Inventor"), and

The Corporate Entity Identified on the Signature Page Below ("Recipient" / "Company").

(David Mahler and Company are each referred to as a "Party" and collectively as the "Parties").

RECITALS

WHEREAS, Inventor is the sole owner and inventor of certain proprietary, patent-pending chemical compositions, two-part masterbatch formulations, layer architectures, and processing methods for coextrudable, wash-debondable multilayer packaging films and sheets as described in Inventor's U.S. Patent Application on file with the USPTO (Priority Date: November 4, 2026) entitled *"Coextrudable Thermally Triggered, Osmotically Wicked, Wash-Debondable Tie-Layer Compositions, Recyclable Multilayer Barrier Packaging Films Comprising the Same, and Methods of Manufacture and Recycling"* ("SeparaTie™ Technology"); and

WHEREAS, Company desires to review confidential formulation specifications, mass-balance sheets, and compounding protocols, and/or compound laboratory test samples to conduct an internal benchtop technical evaluation of the SeparaTie™ Technology solely to evaluate a prospective commercial licensing transaction between the Parties ("Purpose");

NOW, THEREFORE, in consideration of the mutual covenants contained herein, the Parties agree as follows:

1. DEFINITION OF CONFIDENTIAL INFORMATION

"Confidential Information" means all non-public technical, chemical, manufacturing, operational, testing, or financial information disclosed by Inventor to Company, whether orally, in writing, electronically, or by delivery of tangible materials (including formulation mass balances, twin-screw extruder profiles, sub-micron additive specifications, and test data). All disclosures concerning Inventor's U.S. Patent Application filed November 4, 2026 and related formulation trade secrets shall be deemed Confidential Information without requiring restrictive markings.

2. OBLIGATIONS OF NON-DISCLOSURE & RESTRICTED USE

1. **Limited Use:** Company agrees to use the Confidential Information solely for the Purpose of evaluating the technology for a commercial licensing agreement with Inventor, and for no other purpose.
2. **Standard of Care:** Company shall protect the Confidential Information using at least the same degree of care it uses to protect its own confidential materials of similar nature, but in no event less than reasonable care.
3. **No Reverse Engineering or Commercial Exploitation:** Company shall not reverse-engineer, decompile, analyze by chemical fingerprinting beyond the evaluation protocol, commercialize, manufacture for commercial sale, or file any patent application claiming or derived from Inventor's Confidential Information.
4. **Internal Access:** Company shall restrict disclosure of Confidential Information to its employees, directors, and laboratory personnel who have a need to know for the Purpose and who are bound by written confidentiality obligations at least as restrictive as those herein.

3. EXCLUSIONS FROM CONFIDENTIALITY

Confidential Information does not include information that Company can demonstrate by competent written records:

(a) is or becomes publicly known through no breach of this Agreement by Company;

(b) was already rightfully in Company’s possession prior to disclosure by Inventor without confidentiality restriction;

(c) is independently developed by Company personnel who had no access to Inventor's Confidential Information; or

(d) is rightfully obtained by Company from a third party without restriction on disclosure.

4. 60-DAY EVALUATION PERIOD & TEST DATA SHARING

1. **Evaluation Term:** Company shall have a period of **sixty (60) days** from receipt of the Confidential Formulation Protocol ("Evaluation Period") to conduct its internal benchtop compounding and wash testing.
2. **Summary Data Exchange:** In consideration for Inventor providing the proprietary formulation and processing protocol at

zero charge, Company agrees to provide Inventor with a copy of the non-confidential technical test summary (delamination time, ASTM F88 peel strength, and flake appearance) generated during the evaluation.

3. **Right of First Refusal / Negotiation Window:** During the 60-day Evaluation Period, Company shall have an exclusive Right of First Discussion to negotiate the commercial patent license in accordance with the proposed 3.0% Royalty Term Sheet.

5. INTELLECTUAL PROPERTY OWNERSHIP

Company expressly acknowledges and agrees that all intellectual property rights, inventions, improvements, know-how, and patent rights in and to the SeparaTie™ Technology (including all subject matter disclosed in Inventor's U.S. Patent Application filed November 4, 2026) are and shall remain the sole and exclusive property of David Mahler. Nothing in this Agreement grants Company any license, title, or interest in Inventor's intellectual property, except the limited right of evaluation set forth herein.

6. RETURN OR DESTRUCTION OF MATERIALS

Upon written request of Inventor or upon expiration of the Evaluation Period, Company shall promptly cease all use of the Confidential Information and, at Inventor's option, destroy or return all written and electronic copies and unused compounded test coupons, certifying compliance in writing.

7. GOVERNING LAW & REMEDIES

This Agreement shall be governed by and construed in accordance with the laws of the Commonwealth of Massachusetts, without regard to conflict of law principles. Because unauthorized disclosure or use of Confidential Information will cause irreparable harm for which monetary damages alone would be inadequate, Inventor shall be entitled to seek injunctive relief in any court of competent jurisdiction in addition to all other legal remedies.

IN WITNESS WHEREOF, the Parties have executed this Agreement as of the Effective Date.
